Dhanshree Ahire

SOFTWARE DEVELOPER

Enthusiastic and quick-learning software developer with strong programming skills in Java, Python, Javascript and web technologies. Solid understanding of data structures and algorithms with hands-on project experience. Eager to contribute to real-world software development and grow within a collaborative team environment.

EXPERIENCE

FRONT-END DEVELOPER ANON, INC.
Sep 2024 – March 2025

Front-end developer (Intern) React.js | JavaScript | HTML5 |
CSS3 | API Integration

Frontend Developer Intern Teplo App – React Native v14.4.0
Worked as part of a collaborative team to develop the Teplo mobile application, an IoT-enabled smart tea brewing platform. Responsible for implementing responsive, high-quality user interfaces using React Native v14.4.0. Translated Figma designs into functional components, ensured cross-platform performance, and contributed to delivering a consistent and intuitive user experience across iOS and Android.

Web Scraping -Web scraping using Playwright enables automated data extraction from dynamic websites by simulating real user interactions in a headless browser. It supports modern web technologies, making it ideal for scraping JavaScript-heavy Pages with precision

PROJECT

PetAdopt – Mobile Application React Native, Firebase, REST API, Expo Developed PetAdopt, a React Native mobile application enabling users to browse, search, and adopt pets from local shelters. Integrated real-time data with intuitive UI for seamless pet discovery and adoption experience.

Portfolio – React Build responsive portfolio website using react.js to show projects skills and experience Implemented
